PoolMaster Filter Crystal

An eco-friendly replacement for traditional sand filter media

- Ideal for Swimming Pool or Spa Pool filtration
- Superior to traditional sand filtration
- Made from recycled materials
- Removes Finer Particles than sand, providing better water clarity
- Reduces turbidity by up to 25%*
- Requires 20% less water to backwash*

Made from 100% Recycled Glass

Density: 2500kg / m³

Coefficient of Uniformity: <1.30

Estimated Sphericity: 0.30 – 0.50, angular to sub-angular

Porosity: 48%

Effective Sizes: 1.2 – 1.6mm

Typical Analysis: Na₂O 14.5%, CaO 10%, MgO <1%, Al₂O₃ 2%, SO₃ <1%, SiO₂ Balance

Effective Micron Filtration: 10-15 Micron
